What is Covered California?
Covered California is the marketplace for you to compare plans from different insurance companies and buy private health insurance.

What is the CSU system doing?
We are educating students and their families about how this new system works, what their options are for affordable coverage.

Do I really need health insurance?
Yes, you do. Starting January 1, 2014, you will be required by federal law to have health insurance.

Health insurance may cost less than you think.
You and your family may qualify for financial assistance from the government (subsidies) to help you pay for health insurance.

Why else do I need health insurance?
Health insurance provides you with both primary and specialty care as well as preventive care to help keep you healthy.

You never know when something can happen, and a serious illness or accident could leave you or your family in debt for years. Health insurance gives you financial protection.
