Job Fair Success Webshop

(Career Center > Students > Videos, Workshops & Handouts > Job Fair Success Webshop)

Learn job search strategies that help you succeed at job fairs, employer events, and more. Complete this online tutorial and receive your early bird pass registration.

Completing this online tutorial by 9/19 @ 5:00 p.m. is required to attend the Job Fair during the Early Bird Hours.

Researching Job/Internship Fair

Employer Job Descriptions

www.sjsu.edu/careercenter > **SpartaJobs Students**

1. Select Events > Fall '14 Job Fair
2. Select positions recruited
3. Select job title (job description—target resume/prepare one-minute commercial)

TIPS FOR SUCCESS

SJSU Career Center job fairs are an excellent opportunity for you to gain information about anticipated internships and career positions. It is also a great way to make contacts. Identify which organizations you want to interact with by previewing this list of participants. Log on to the Career Center's website @ www.sjsu.edu/careercenter to research their job descriptions so that you can target your resumes and one-minute commercials. Instructions are on the list of employer participants.

BEFORE THE FAIR

Register with SpartaJobs for faster entry into the fair the day of the event. Identify which organizations you want to talk to at the Fair.

Log on to the Career Center's website @ www.sjsu.edu/careercenter to research their job descriptions and their organization so that you can target your resumes. Directions are on the reverse. If specific positions are not listed, check the employer's website for additional job postings. Know what the company does and what their key products or services are. This information will be helpful when speaking to employers. For more tips on researching employers, review the Researching Webshop at www.sjsu.edu/careercenter/students/videos_workshops_and_handouts/virtual-workshops-videos/index.html.

Prepare your resume. "Target" a resume to each employer's job opening. Shape up your resume with a resume critique - - Come to a job and internship search lab, drop in hours or request an appointment through SpartaJobs. Go to www.sjsu.edu/careercenter for our events calendar and to access SpartaJobs. Review our Job Fair Success Webshop online to perfect your one minute commercial and employer introduction. Go to www.sjsu.edu/careercenter > Videos, workshops, and handouts > Job fair success webshop to review the webshop.

Practice presenting yourself as follows:

- Introduce yourself — look confident and initiate a handshake with a smile.
- Demonstrate a knowledge of the organization. Listen to the conversation with recruiters while you wait in line.
- Prepare a one-minute commercial (your verbal portfolio) — describe your strengths, major, career interests, work experience, extracurricular activities, and the type of career information or job you are seeking. Show how your background and future goals fit the organization.

Prepare questions to ask representatives:

- What types of assignments are given to new graduates or interns?
- What do you look for in candidates? What key skills/experiences are highly desirable?
- What type (if any) of professional growth/development opportunities are available?
- Do you have any other tips for success in this field?

AFTER THE FAIR

If you are given the contact information of the representative you spoke with at the fair, follow-up with an email thanking them for their time and information. Include another resume and any other information requested (completed application, recommendations, or transcripts).

Develop a post job fair plan to keep actively engaged in your job search. Attend a Career Center Rock Your Interview Workshop or WebEx Webinar to prepare for success in your interviews. Utilize our online tools, such as Big Interview, the Job Search Toolkit or our 3-part Interviewing Webshop Series.

Be sure to check the job listings on SJSU's SpartaJobs and upload your resume to apply for open positions. Go to www.sjsu.edu/careercenter. There are also many other resources available online and in the Career Resource Lab, Admin. Bldg., room 154

AT THE FAIR

Dress professionally.

Target organizations that are of interest to you:

- Pick-up and scan the employer's short handout. Determine if your one-minute commercial will remain the same.
- Introduce yourself to the representative.
- Give your resume to the representative. Begin your one-minute commercial. Remember: the one minute commercial is an introduction to begin your conversation. Avoid giving a one minute speech, and instead try to engage in a two way conversation with the employers. Ask questions (examples to the left) and listen carefully to the response.
- Ask about the application procedure. A positive attitude pays off! Follow up — get a business card or a contact name. Do not ask questions about salary and benefits.
- Be prepared to be asked to apply online for positions. This is a common practice today and an important step in landing an interview.
- Bring your calendar. Be prepared to schedule interview appointments.
- Be patient and anticipate lines. Visit less crowded organizations first.
- Good luck!

Affirm

At Affirm we believe the financial industry is fundamentally broken. Not only is the core infrastructure built with technology from the 1970s, but there are a dwindling number of people who say "I trust my bank to look out for me". It doesn't have to be this way, and it's our mission to fix this problem. We are using technology to re-imagine and re-build core parts of financial infrastructure to enable cheaper, friendlier and more transparent financial products and services that improve lives. We are based in San Francisco; founded by Max Levchin (founding CTO PayPal), Jeff Kaditz (CDO DeNA/ngmoco), and Nathan Gettings (founding CTO of Palantir); and looking for exceptionally talented and passionate people to join us in our mission.

Central Contra Costa Sanitary District

Central Contra Costa Sanitary District (Central San) is a special district that was formed by the residents of central Contra Costa County in 1946. Our mission is to protect the health of the public and the environment. Our treatment plant in Martinez collects, treats, and disinfects an average of 45 million gallons of wastewater every day. Some treated wastewater is recycled (treated further) for irrigation use of golf courses and parks; the rest is released to Suisun Bay. Today, Central San serves more than 500,000 residents and thousands of businesses within a 144-square-mile area. Our workforce is comprised of about 260 highly skilled men and women whose dedication and commitment enable us to provide efficient, cost-effective service for our customers while meeting or surpassing all...

Lam Research Corporation-Spartan Partner

Lam Research Corporation is a major supplier of wafer fabrication equipment and services to the worldwide semiconductor industry, where we have been advancing semiconductor manufacturing for more than 30 years. With the ongoing and growing demand for feature-rich consumer products, chipmakers are challenged to mass produce highly sophisticated devices. To keep pace and meet challenging production requirements, semiconductor manufacturers will need to invest in highly versatile and reliable wafer fabrication equipment. Lam's recent merger with Novellus Systems, Inc., has created a broad portfolio of complementary product capabilities that includes Lam's leadership in etch and single-wafer clean and Novellus' leadership in thin film deposition and photo resist strip.
