

# SJSU Student Guide to General Education Advising

## Notes

1. If you plan to take a lower division General Education course at a two-year college or another four-year college/university, check to make sure it counts toward your GE requirements at SJSU: Go to [info.sjsu.edu](http://info.sjsu.edu) and click on "articulation," then click on the link for "GE Breadth" to find your school. If you have additional questions, check with your academic advisor.
2. Review the on-line catalog of courses and majors at [info.sjsu.edu](http://info.sjsu.edu)
3. Review your Academic Requirements Page (via [MySJSU](http://MySJSU) > select "Academic Requirements" in the drop down menu under "Academics," and click on the circle next to it. It will take a few moments to run the report.) Visit this page after registering for courses (once you register for courses, they will appear "In Progress") and after grades are posted for the semester to ensure you are fulfilling your General Education requirements.
